

Connecticut State Shoot August 22 -24 2008

We held the State championship shoot over last weekend , as shoots go this was one of our best with regards to the Target presentations and organization. The Sporting clays committee, trappers, scorers, loaders, target setters, trouble shooters all did a remarkable job making this shoot the huge success that it was. The food was great the kitchen staff out did themselves, but the man of the day goes to Dick Orenstein for his never ending enthusiasm for getting the registrations right and the scores completed in record time, probably because he is a master with the computer. Targets in the FITASC and the Main event were super, nothing but rave revues from the shooters. They were on the tough side and the scores represent that but none the less they were fair and hittable. Possibly next month I'll ask someone to write a summary of the shoot that will give us a look through the shooters eyes. Let me take this time to Congratulate all the winners and especially Mike Koneski for HOA in the Main and Ralph Lowery for HOA in the FITASC, great shooting ! Below are the results of the Shoot:
